## Staff Spotlight: Catrina Noffer

In honor of National Supervised Visitation Awareness Month in May, Catrina Noffer, full-time staff member for the Visitation Center, has been highlighted in this edition.

Catrina started working for Catholic Charities Domestic Violence Program in the Supervised Visitation Center June of 2015. She has played an integral role in how the Visitation Center operates. She is responsible for scheduling, organizing and facilitating the operations of the Center. Catrina is the first person that welcomes the families into the Center. She helps the children and the parents feel more comfortable while they are utilizing the center's services.

When asked what she likes about her job, Catrina responded,

"All of it. The joy I see on the children's faces and the feelings of knowing that they are safe. I love making the children laugh and feel comfortable... I like that we always do our best to meet their needs. I love that my job doesn't feel like a job at times. I know that I'm doing a great thing by being part of the center."

Catrina has attended many trainings to increase her knowledge and understanding of working with families in need of supervised visitation. Most recently she attended the Supervised Visitation Networks Annual Conference in New Orleans, LA. Catrina has an Associate Degree in Applied Science: Human Services from Herkimer College. She resides with her husband and two daughters as well as her four fur babies. Catrina enjoys traveling, playing BINGO and spending time with her family and friends.
